Kuali Rice 2.4.2-SNAPSHOT Release Notes

Released: 07-10-2014

Table of Contents

Overview

Welcome to Rice 2.4.2-SNAPSHOT!

Release Highlights

This version of Rice contains bug fixes requested by the Kuali Applications and community. There are no database changes and it should be a drop-in replacement.

Download

Kuali Rice 2.4.2-SNAPSHOT can be downloaded from the Rice website at http://kuali.org/rice/download.

There are three different distributions of Rice available: source, binary and server. Please read the Installation Guide for more details on each of these distributions.

Applications can also consume Rice from the maven site at http://search.maven.org/#search|ga|1| org.kuali.rice.

Documentation

API Documentation can be found at http://site.kuali.org/rice/2.4.2-SNAPSHOT/apidocs/index.html

Formal documentation can be found at http://site.kuali.org/rice/2.4.2-SNAPSHOT/reference/html/ index.html. This documentation is still in the process of review and update which will continue through subsequent releases, so please follow the notes in each document to report any outdated information.

Contact

If you encounter any difficulty, please don't hesitate to contact the Rice team on our public collaboration mailing list at <rice.collab@kuali.org>. Please indicate that you are using the 2.4.2-SNAPSHOT version of Rice.
